

Rockcliffe First School Safeguarding

We all have a statutory duty to safeguard and promote the welfare of our children.

If you have any concerns about the welfare, safety or health of a child at our school, or feel that something is troubling them, you should share this information with a Designated Safeguarding Lead straight away. Don't worry that you may be reporting small matters— we would like to know all information regarding keeping our children safe.

Any allegation or disclosure involving a member of staff, a child in foster care or a volunteer at school must be reported directly to the Headteacher or Deputy Designated Safeguarding Leads.
